Bathe Artfully

Freestanding bathtubs from KALLISTA have come to represent so much more than just bathtubs. The epitome of luxury, each one presents itself as the embodiment of indulgent features and thoughtful craftsmanship. Complemented by a flawlessly sculpted exterior and ever-commanding presence, the bathtub is transformed into an experiential art form—and the act of bathing into the art of bathing. Freestanding baths from KALLISTA. Bathe artfully.

Experiential Design

There is one thing equally as important as the look of any KALLISTA® freestanding bathtub—the feel. Which is why when it comes to the composition, the human experience underpins the approach to the overall design.

With a keen focus on comfort and depth, each bath is crafted to support the body's form and provide a deep, satisfying soak. From modern to vintage, each purposeful design delivers a bathing experience unlike any other.
