# ONE HUDSON YARDS

NEW YORK

Towering among the structures is a masonry and glass-clad building of timeless residential design: One Hudson Yards. Andre Kikoski Architect and KALLISTA collaborated to create livable luxury in Manhattan's next great neighborhood.

Kikoski's vision involved using unconventionally artful and exotic materials to create a holistic environment that is at once sophisticated and luxurious, yet warm and inviting. KALLISTA's capacity to execute meticulously crafted ideas paralleled Kikoski's boundary-pushing textural visions, which is what ultimately led him to select KALLISTA as a brand partner in design.

At One Hudson Yards, Kikoski chose KALLISTA® pieces from the *One™ collection* to provide the bathrooms' striking sink hardware. Featuring clean geometry and KALLISTA marble-embedded handles—custom designed by Andre Kikoski—the collection provides a luxurious experience at every touch.

CHICAGO

The third-tallest tower in Chicago, St. Regis Chicago is a hallmark inspired by crystalline structures in nature. The 101-story condominium and five-star hotel was influenced by mathematical precision.

VIR STIL<sup>®</sup> COLLECTION IN BRONZE AT HOTEL CALIFORNIAN, SANTA BARBARA

# HOTEL CALIFORNIAN

SANTA BARBARA

The gateway to the Pacific Ocean is defined by Hotel Californian's luxury in Santa Barbara. This Moroccan-inspired, 121-room Spanish Colonial Revival property, captivates Hollywood elite, international visitors, and locals alike. AD100 designer Martyn Lawrence Bullard envisioned the iconoclastic enclave to be a juxtaposition of history and the frisson of the unexpected. The glamour and élan that KALLISTA® products provoke serve to complement the vision of Hotel Californian throughout its dazzling spaces.

The Laura Kirar-designed *Vir Stil® collection* is proudly adorned throughout the ornately textured bathrooms. The fluted design is eloquently tactile, adding value in function and richness to the sensorial experience within each space. The bronze finish creates contrast to the marble surfaces, building drama and sparking conversation with its exotic yet elegant feel. KALLISTA products inspire a balance between the legends of the past and the narratives of the future, contributing to Hotel Californian's elegant design approach: to engage the senses of the guests, tantalizing their sight, touch, and smell.

# PARK HYATT

SHENZHEN

A haven of tranquility, Park Hyatt Shenzhen, designed by Kohn Pedersen Fox Associates (KPF), is a sanctuary akin to “floating on a cloud.” With 195 grand guest rooms, including 24 suites, the Park Hyatt Shenzhen infuses subtle contemporary Chinese detailing into bespoke furniture and art designed by Yabu Pushelberg. KALLISTA was specifically chosen to instill harmony, resonating with the artifacts.

The KALLISTA® *Script® collection* is as much a part of the symphony in the clouds as strings are to the instrument. The Script collection’s intrinsic old-world details with new age form imbue sculptural elements reminiscent of the distinctly Chinese string instrument known as the erhu. Park Hyatt Shenzhen is an example of the trust in KALLISTA’s ability to deliver anywhere in the world and provide full bath solutions that restore, reenergize, and ignite the imagination.
