Live Art

Artfully

To live artfully—to be present in every moment and appreciate the beauty all around—KALLISTA has built its brand around this very idea, and it remains the main principle that stands behind each design. Like an acclaimed painting or sculpture that intrigues, each piece tells a story of imagination and craftsmanship. At KALLISTA we are dedicated to exploring and celebrating the artist behind the work, revealing the inspiration that brings every piece to life.

A singular elegance animates the inspired designs of KALLISTA. Precise functionality, purity of form, selection of materials, and superb finish all play a role. Materials are a considered choice, and at KALLISTA they must be of the highest quality. The enamel accents harness the intricate art of cloisonné, each articulating the design authenticity reflected in all KALLISTA® products. The products and collections within this book should be viewed no differently than a piece of fine art, considered and appreciated for its compelling details and exquisite craft.

Live artfully. Selective, sophisticated, and always imaginative and inspiring—welcome to KALLISTA.

Finish With Style and Grace

From Unlacquered Brass to Gunmetal, from Brushed Nickel to Brushed Bronze, KALLISTA's decadent range of finishes turns faucets and fixtures into stunning, one-of-a-kind showpieces. Created in complex layers to allow the color to penetrate the metal, each finish is crafted to elevate the feel of a space with a touchable warmth and dramatic aesthetic. The composition of the finish is as purposeful as it is beautiful. The KALLISTA® line of Living Finishes is designed to naturally patina over time, imparting a soft, weathered appearance, whereas powdercoated and PVD finishes like Matte Black and French Gold provide a smooth durability that withstands the rigors of daily use. No matter your finish choice, KALLISTA will enhance your home environment . . . beautifully.

Prestigious Partners

Many of the awe-inspiring designs of KALLISTA have come from its partnerships with some of the most distinguished and recognized artistic masters from the world over. These remarkable collaborations lend a sophistication and rarified nature to every setting, and they pay homage to the art of true handcraft that has spanned generations.

The KALLISTA partnership with Cristallerie Royale de Saint-Louis produced a series of one-of-a-kind decorative crystal knobs for the bath. Renowned for its crystal works since the early nineteenth century, Saint-Louis continues to create its crystal designs using the disciplined old-world techniques of crystal blowing and intricate hand-etching. KALLISTA found a kindred spirit in Saint-Louis, taking notice of its approach to art and commitment to sophisticated, timeless design. It is through these relationships that KALLISTA will continue to move the bar, creating a portfolio of unique and meaningful products that separate, define, and withstand the test of time.

Innovative Technology

Historically, the manufacturing process has limited the way in which a faucet is designed. Advances in 3-D printing technology, however, have made it possible to create complex-shaped pieces that would otherwise be impossible by universal standards. For KALLISTA, 3-D printing has made producing the visionary Grid® sink faucet design a reality—and marks the first of its kind for the product portfolio.

Minimalist in its form and unique in its design, the Grid sink faucet is developed through a layer-by-layer process of powdered steel that is laser-fired to liquid, cooled, and the process repeated until the form is complete. A system of discreet interior channels allows the water to flow easily through the faucet's open form, from the base to the spout. To complement the faucet's sleek lines and "demassed" aesthetic, the handles employ metal casting to achieve a perfectly open square design.

PER SE® COLLECTION

Design Approach

While every product KALLISTA offers is unequivocally unique, each shares one thing in common: the approach to the design. The KALLISTA design team travels the world in search of the most compelling trends to influence aesthetics, materials, and finishes. They then reimagine their findings to create artful and timeless full-suite solutions that push the boundaries of design, whether contemporary, traditional, or transitional. A profound consideration for the whole space results in seamless pairings with other products—like the innovative styling solutions of decorative product brand Robern® or the globally curated tile of ANN SACKS®—and the delivery of unparalleled experiences within the kitchen and bath spaces. For more than 40 years, this has been the approach that has—and continues—to set KALLISTA apart as a leader in luxury decorative plumbing products.

Designer In

inspiration

For over four decades, KALLISTA has drawn its inspiration from across the globe through its relationships with some of the finest, world-renowned designers. This collaboration continues to create a breadth and depth of designs that set KALLISTA apart.

Robert A.M. Stern
Architects

CENTRAL PARK WEST™

New York-based architecture firm Robert A.M. Stern Architects is internationally celebrated for blending modern and traditional styles. A unique collaboration with KALLISTA inspired a chic brassware collection—Central Park West—that simultaneously expresses the firm’s signature aesthetic and boasts broad appeal.

KALLISTA

CENTRAL PARK WEST™ COLLECTION BY ROBERT A.M. STERN ARCHITECTS

CENTRAL PARK WEST™

A COLLECTION BY *Robert A.M. Stern Architects*

Harking back to the elegance and glamour of an earlier era, the new Central Park West collection was created in partnership with Robert A.M. Stern Architects to bring traditional character with modern sensibility to a multitude of settings. From the sink faucets and complementary accessories to the showering components, the decorative characteristics and distinctive detailing—including knurling, fluting, and monogram-style lettering—are meticulously echoed throughout each piece of the collection.

Bjarke Ingels
—

TAPER®

Lauded, technologically savvy architect Bjarke Ingels—founder of Denmark-based Bjarke Ingels Group (BIG)—earned a reputation for creating tradition-defying, sustainably minded buildings and projects. His innovative Taper collection for KALLISTA marries form and function with architectural lines and an unmistakably urban vibe. Since its introduction, the Taper sink faucet has earned several accolades including the Great Design Award from *Architectural Digest*, Good Design Award, and iF Design Award.

TAPER® COLLECTION BY BJARKE INGELS

TAPER®

A COLLECTION BY *Bjarke Ingels*

The Taper collection reinvents minimalist design through shape-shifting geometry, turning the practical into poetry. Ingels' concept draws upon a rich Scandinavian furniture-design heritage known for modern curves and simple yet stylized shapes. It's at once unconventional and unexpected but playfully approachable.

Barbara Barry

COUNTERPOINT.

Barbara Barry's architecturally inspired works are in harmony with refined environments, thanks to their ageless elegance. With her Counterpoint collection for KALLISTA, it's clear why Barry's sculptural-meets-minimalist designs have earned the praise of her peers and the press; they elevate baths and dressing rooms to settings of subtle sophistication.

COUNTERPOINT® COLLECTION BY BARBARA BARRY

COUNTERPOINT.®

A COLLECTION BY *Barbara Barry*

Struck by the sculptural form and polished look of a 1930s-era airplane, Barbara Barry created the Counterpoint collection to resemble features of the iconic aircraft. The entire collection embodies the elegance and simplicity of modern design with a commanding presence that will add sophistication to any modern space.

GRID[®]

A COLLECTION BY KALLISTA

Taking its design cues from the De Stijl movement, the Grid collection by KALLISTA delivers on the premise of pure abstraction advocated by early twentieth-century artists and architects. Available in Matte Black, the collection's sleek and minimalist composition complements modern and transitional interiors alike.

FINISHES

Offered in a range of artisan-inspired hues, the KALLISTA® portfolio of finishes instantly transforms faucets and accessories into stunning, one-of-a-kind showpieces. Created in complex layers to allow the color to penetrate the metal, each finish is crafted to elevate the feel of a space with a touchable quality and dramatic aesthetic. From living and powder-coated to physical vapor deposition (PVD) and beyond, KALLISTA will bring each and every finish into your environment . . . beautifully.

*PVD Finish

PVD FINISHES

The KALLISTA finish repertoire expanded to incorporate PVD, a coating technique which bonds the finish to ensure durability and color integrity while resisting scratching, tarnishing, and corrosion.
